## IN THE MATTER OF:

Voice Broadcasting Solutions, LLC

For Global or Limited Global Resale Authority (Section 63.18 (e)(2))

Within the U.S. and between the U.S. and Various International Points

## ATTACHMENT 3 To FCC Section 214 Application (International)

## **MISCELLANEOUS INFORMATION**

Voice Broadcasting Solutions, LLC ("Applicant") pursuant to Section 214 of the Communications Act of 1934, as amended "Act"), 47 U.S.C. 214, hereby requests global authority to operate as a global resale or limited global resale carrier pursuant to the terms and conditions of Section 63.8 (e)(2) of the Commission's Rules to all foreign points as authorized by the Commission and as described in this Application.

Applicant is a provider of multimedia broadcasting services and has developed a database software system that allows it's customers to reach a large customer base or population through voice and fax telecommunications. Its customer base will be comprised of private companies or corporations, government agencies and other interested entities. For example, in case of a severe weather emergency, a local, state of federal agency may purchase access to our services in order to warn a large geographic area of the impending danger. Or, in the alternative, a large retail corporation can reach its customer base to broadcast important events, thus utilizing our services as an integral part of their marketing strategy.

Voice Broadcasting Solutions does not own any facilities-based equipment. It's services are provided by virtual locations because it is a database management software application. We will use the authority granted by the Commission to resell telecommunications that broadcast messages to a specified database of individuals. Any and all usage of telecommunication services as authorized in this Application will be used in a strict and narrow application as explained above. We intend to market our services globally and in a manner that will adhere to all FCC requirements as set forth in this Application.
